WHO WE ARE

Founded in 1973, Mechanical Engineering Group (MEG) is one of the leading engineering and construction firms in the MENA region.

With 45 years of experience, MEG provides design, engineering, value engineering, procurement, construction, and commissioning services, with a reputation for successfully delivering projects on time and within budget.

OUR SERVICES

DESIGN

Applying multi-disciplinary design strategies and principles to develop comprehensive and cost-effective engineered solutions.

CONSTRUCTION

Delivering a broad range of turnkey construction services, including oil and gas, infrastructure, and industrial/manufacturing sectors.

ENGINEERING

Providing innovation and proven technical expertise in order to achieve higher levels of performance and asset longevity, while reducing costs.

PROCUREMENT

Through an efficient global supply chain, MEG provides material procurement services ensuring adherence to international standards and timely on-site delivery.

REPAIR AND MAINTENANCE

Providing customized services for damaged or aging facilities to extend the life and enhance the performance of clients' assets.

PROJECT MANAGEMENT

Offering an integrated team approach to deliver project management solutions that meet clients' objectives of time, quality, cost, and safety.

OUR COMMITMENT

SAFETY. We are committed to ensuring the safety of our personnel and everyone we conduct business with by applying stringent HSE policies.

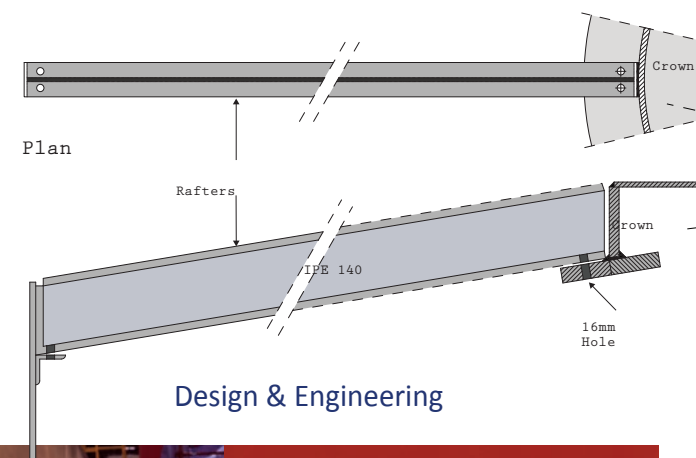

QUALITY. Our success is founded on our commitment to achieving quality by adopting rigorous techniques and adhering to the highest codes and standards (ANSI, ASTM, API, EEMUA and others).

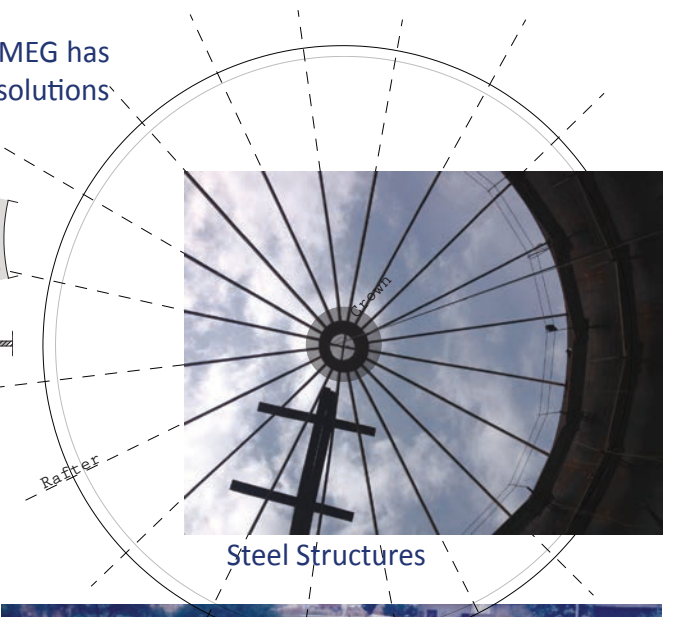

HSE

OUR EXPERIENCE

With more than 40 years of contracting experience, MEG has consistently delivered state-of-the-art turnkey solutions including:

Design & Engineering

Steel Structures

Fire-fighting Systems

Industrial Pumping Stations

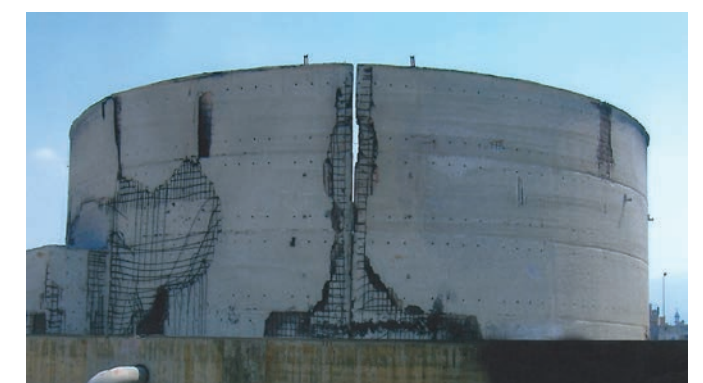

Fuel Terminals and Process Piping

Sea Lines for Tanker Offloading

Refurbishment of Tanker Trucks

Repair and Maintenance
